About

I am sensitive, flexible, team-oriented and most importantly passionate about coding. I am sure that I will work hard for the development of the company I will work for and myself. As a disciplined person, I approach every job responsibly. I am sure that I will use all my experience effectively for the position I will work for.

Work experience

EACAMP

Frontend Developer Mentor

When students are struggling, I help them and explain the codes again.

January 2023 - on going

Insightify

Frontend Developer

"I worked for an Estonian startup where I was part of a team of four developers. During my time there, I actively participated in integrating the frontend components of the website."

April 2023 (4 month)
